GLOBAL TECH ADVOCATES FESTIVAL
3rd May 2019

A BIG THANK YOU TO EVERYONE WHO ATTENDED THE GLOBAL TECH ADVOCATES FESTIVAL IN SHANGHAI.

ONE WEEK ON.

THURSDAY 16TH OCTOBER

OCTOBER OF EVENTS AND ACTIVITIES IN SHANGHAI,

Genevieve Ng:
Department for International Trade (DIT)

Anthony Meyer:
London & Partners and co-lead

Koen Vandecaveye:

Tony Clemson:

Tech Scotland Advocates:

Shariff Oli Barrett and Debu Purkayastha

Tech London Advocates Advisory Board:

John McLaren-Stewart

John and the team at CENTI are eager to host another GTA event in China in 2020.

By many measures, our first Global Tech Advocates Festival was a great success, and I look forward to making this a regular part of the GTA activities.

I also did interviews with China Daily, South China Morning Post, Channel News Asia. In the UK, City AM and Computer Weekly have covered the week and New Enterprise Media have some fantastic stories about the week.

We have used the week to test new ideas and build on what we have done before, and of course, we have celebrated the success of the week! After that, we will plan to do something like this again in 2020.

The delegation travelled to the Zhangjiang High Tech Park, which is the largest innovation zone in China. There we visited Shanghai Synchroton Radiation Facility (SSRF), the Zhangjiang International Innovation Port and the Zhangjiang Innovation Center.

Other GTA groups expressed an interest in hosting something similar in 2020.

A massive thank you to the team at CENTI, who is the GTA partner for China, is also planning to work on two Facilities (SSRF), the Zhangjiang International Innovation Port and the Zhangjiang Innovation Center.

Many thanks to John and the team at CENTI are eager to host another GTA event in China in 2020.

In brief:

The team from the National Eastern Tech Transfer Center in Shanghai were also actively involved with the event and securing support from the Shanghai Science & Technology Committee.

By many measures, our first Global Tech Advocates Festival was a great success, and I look forward to making this a regular part of the GTA activities.

Global Tech Advocates and Tech London Advocates.

A massive thank you to the team at CENTI, who is the GTA partner for China, is also planning to work on two Facilities (SSRF), the Zhangjiang International Innovation Port and the Zhangjiang Innovation Center.

Many thanks to CENTI, led by John Zai, who did a fantastic job making sure the trip was well-organised and for their support and sponsorship of GTA.

The event was attended by national and regional leaders in both government and industry, and we have this in place, then it would be great to have you mark your diaries.
